

Aviation Financing

\$500K – \$30M+

Loan Range

Up to 20 Yrs

Amortization

30–45 Days

Typical Close

Sequoia's aviation financing program provides structured capital for the acquisition of private jets, turboprops, piston aircraft, and helicopters — including complex fractional ownership entities and multi-party LLC structures. Our lender network includes specialists who understand FAA registration, Part 135 operations, and high-value aviation collateral.

FINANCING PROGRAMS

Private Jet Acquisition

Financing for new and pre-owned light, midsize, and large-cabin jets through specialty aviation lenders.

Turboprop & Piston Aircraft

Competitive programs for owner-flown aircraft with flexible terms and streamlined documentation.

Helicopter Financing

Structured loans for personal and commercial helicopter acquisitions with experienced collateral underwriting.

Fractional Ownership

LLC and co-ownership structures supported — with individual guarantees and entity-level borrowing available.

Refinance & Cash-Out

Refinance existing aviation debt or access equity in owned aircraft for liquidity or fleet upgrades.

KEY ADVANTAGES

Lenders with FAA registration and aviation collateral expertise

Flexible structures for LLCs, trusts, and fractional ownership

Floating and fixed rate options with SOFR-based pricing

No requirement to liquidate investment portfolio

Discreet handling of high-net-worth client transactions

CASE STUDY · Aircraft Financing

\$6.2M

Private Jet Acquisition — Fractional LLC Structure

A client sought to acquire a light jet through a fractional ownership LLC shared with two business partners. Sequoia identified a specialty aviation lender experienced in multi-party structures. The \$6.2M loan closed in 40 days with a 15-year amortization and SOFR-based floating rate — ahead of the aircraft delivery deadline.

IDEAL FOR

HNW clients acquiring personal or business aircraft

Multi-party and fractional ownership structures

Clients seeking to refinance existing aviation debt
